NIST Cybersecurity Risk Assessment — "MediHealth Clinic"

Project Overview

Project Title: NIST Cybersecurity Risk Assessment for MediHealth Clinic
Author: Taniesha Stewart, CompTIA Security+, IBM Cybersecurity Analyst, ISC2 Certified
Purpose:
This project demonstrates the use of the **NIST Cybersecurity Framework (CSF)** to perform a **risk assessment** for a fictional healthcare organization. The goal is to identify, assess, and mitigate cybersecurity risks to protect patient data and maintain compliance with **HIPAA** and **HITECH** regulations.
